jsrhodes15@gmail.com

## Professional Summary

I am a highly driven, aspiring software developer with an insatiable hunger for knowledge, who is able to add value to every project I am part of. I have spent the last year moonlighting as a developer-in-training while working full time in the hospitality industry to support my family. One of my biggest strengths is the knowledge and acceptance of my weaknesses. I am constantly working on my own projects to increase my knowledge and experience.

## Skills

HTML • CSS • Javascript • Ruby on Rails • SQL • git • Heroku • People • Photoshop • SEO
